

Tips to Reduce Waste:

RETHINK

Your Ecological Footprint: what impact do your actions have?

REDUCE

Your consumption: do you really need it? (If not, refuse it!) Look for less (or no) packaging, buy local!

REUSE

Bring your own water bottles, mugs, bags, & to-go containers. Repair items. Donate or sell clothing, furniture and other reusable items.

RECYCLE

Place your recyclable items in the green 18 gallon curbside recycling bins, or take them to a City drop-off.

COMPOST

Place your yard waste only in 30 gallon brown paper bags or trash cans (without liners) marked YARD WASTE for curbside pick up. (35 gallon/50 lb. weight limit please) Start your own backyard compost pile or worm bin for your food waste.

SAFE DISPOSAL

Please properly dispose of all Household Hazardous Waste (HHW), including Batteries, Oil, Pesticides, Solvents, Tires, Electronics, Fluorescent Bulbs, Medical Sharps, and Metal Appliances/Scrap Metal at:

Household Hazardous Waste Drop-Off
2615 Brink Drive 479-846-3005
8am-4pm M-F
8am-Noon 1st Sat of every month

Bulky Waste

The City provides one free bulky waste pick-up to Fayetteville residents of single-family homes each year. This service is to handle items that are too large to fit into the normal trash carts such as furniture, appliances and brush and tree bulk.

* There will be a Freon recovery charge of \$30.00 per unit for any Freon containing appliance picked up curbside.

**To schedule a pick-up, call
(479) 575-8398**

The Recycling and Trash Collection Division also sponsors 8 free Bulky Waste Ward Clean-Ups for Fayetteville residents for the disposal/recycling of large bulky items each year (4 in the Spring and 4 in the Fall).

**BE BIG→

City of Fayetteville PAY-AS-YOU-THROW TRASH COLLECTION

Pay-As-You-Throw

Reduce your trash, reduce your bill!

WHY PAY-AS-YOU-THROW?

The City of Fayetteville’s Pay-As-You-Throw (PAYT) automated trash collection program breaks with tradition by treating trash service just like electricity, gas, and other utilities.

THIS SYSTEM REQUIRES HOUSEHOLDS TO PAY MORE IF THEY PRODUCE MORE TRASH.

So, if you can reduce, reuse, recycle and compost more of your waste, you can save some money, too!

HOW DOES IT WORK?

All normal household trash should be placed in your green trash cart. There are three different sizes of carts available: 32, 64 & 96 gallons. Please pick the right cart for your trash volume needs. There is a \$20 charge to switch to a larger size cart, but it’s free to downsize!

Cost/Month:		
\$9.68	\$14.78	\$20.98
Downsize Your Trash Cart	Your Yearly Savings	Gallons Diverted From Landfill
96 to 32 gallon	\$135.60	768
96 to 64 gallon	\$74.70	384
64 to 32 gallon	\$61.20	384

CART PLACEMENT

- Place cart with the handle away from the street a minimum of 6 feet from any obstructions (trees, vehicles, mailboxes) & 3 feet from recycling bins or yard waste bags/cans
- Set carts out the night before your scheduled collection day (no sooner than 12 hours prior to collection, & removed no later than 12 hours after collection)

* Please make sure that all trash is placed in bags inside your cart, to avoid litter and keep your cart clean

IMPORTANT REMINDER:

The City charges \$6.40 per bag for extra trash visible above the rim of the cart or outside of the cart on collection days. Each resident receives 4 virtual stickers for extra bags free (assigned to the water meter account).

***If a lid on a cart is open, even an inch, and bags are visible, a charge of \$6.40 per bag will occur!**
